had brought him back to the metropolis of his own land

Grand Republic Puts Out. It was still long before the hour when the most New Yorkers have breakfast that the tugs and the revenue cutters started down the bay to pick up the Danish liner at quarantine. While these early visitors were putting out from the Battery dock the excursion steamboat Grand Republic took on its crowd over at pier A. just across from Battery Park. She was gay with flags and housed a multitude eager to see the most talked

of man of the hour. In half an hour's time after the de- Mr. Taft Expected to Declare His parture from the battery the two tall masts and the black funnel, with a center band of red, of the Scandinavian-American liner could be picked out in CONFERENCE WITH BALLINGER the vague haze of the lower bay. As the revenue cutter with the board-

ing officers drew nearer, the Oscar II loomed up clear and sharp against the sky line. Her halliands, both fore and aft, were strung with gay signal flags. Strains of music played by her band came faintly over the water. A thousand passengers, more or less, swarmed at her

Around her howered a fleet of tugs and launches. From one of these the liner was halled, and a shout went up for Dr.

There was a brief pause while the message was carried below, then a bustle aboard and a parting of the crowdas a tall figure appeared. It was that of a man dressed in a dark sack suit and derby hat, with a face tanned by many days of exposure to the sun. He took off his hat and waved it. Those

on the tug knew that they were looking on Dr. Cook. The doctor beamed on those below. Later on, when a nearer view of him was obtained it disclosed a pair of keen eyes-his eyes are perhaps his most distinctive feature and a countenance in which good humor appeared as the most characteristic trait. It was a pleasant

face to look at. Dr. Cook Answers Questions. Somebody made a metraphone of his hands and shouted up adquestion to the man high above:

"What are you going to do with the observations you have got? Are you.going to submit them to an American commission?" was the first thing Dr. Cook as he passes. caught.

Seizing a megaphone he replied: "No; I shall first submit them to the scientists of the Copenhagen University. After that whoever wants to have access to them is "Have you with you the manuscript and observations which were made?"

The explorer's reply came faintly down: Yes," he said. "I have them here. They are intact." 'How about Harry Whitney?" wentured

Now this was a question everybody had been asking about since Dr. Cookts first interviews, granted in Copenhagen, were published here. How about Harry Whitney, the young man to whom, according to these interviews, Dr. Cook had given his observations and data, and who, instead of hurrying to civilization with them, went hunting the polar bear in north Greenland? The response was awaited with, the

greatest interest. It was not long in com-"My faith in Whitney is just as strong

as it ever was," shouted Cook. "Whitney has my instruments and a duplicate copy of my records with him now. "Whitney has gone off on a hunting trip," added the explorer. "We expect him here about the middle of October." Where is the Bradley-the boat which: took you north? "I left her at Etah. I don't know just where she is now. I have had no communication with Mr. Bradley since."

Asked about his forthcoming book. Dr. The book is finished. I had four months in the extreme north with nothing to do, and later four months among the Danish Greenlanders with much time on my hands. I went over all my notes and data and completed the work.

That was all the explorer had to say then. Later on he gave out a typewritten statement. Cook in Family Embrace.

The earliest tug had not been long on the scene when another appeared, in which were Mrs. Cook and her two chil-

dren and the explorer's brothers. It had been so arranged that Dr. Cook would not be subjected to any of the delay attendant on the visits of the custom house officers. Within a few minutes of the arrival of this tug, the John Gilkinson, Dr. Cook stood at the head of the companion ladder, waiting to descend. His suit cases were quickly transferred. Then he followed amid a great outburst of cheering from the liner's passengers

Dr. Cook greeted his wife with an exclamation of joy and asked:

"Where are the children?" They were pushed forward to a spot from which he could have a clear view of them. Both of them, as well as Mrs. Cook, had small American flags which they waved frantically.

As soon as Dr. Cook had stepped on the upper deck of the John Gilkinson, he was engulfed by his family and embraced for several minutes. Then, while

the band on the Oscar II played American and Danish tunes, and the passengers gave one parting cheer, the Brooklyn physician who sprang into fame at a single bound faced about and waved his derby hat until his wrists were tired. He held his little daughter in his arms. She seemed scarce able to contain herself for happiness.

There was a good deal of maneuvering about in the next half hour, as a lot of persons were anxious to get on the Gilkinson, and the custom house officers were anxious to keep them off. A man with a long black beard, who stood beside Dr. Cook on the upper deck and whose identity was not disclosed, took it will not see anybody now. After a great deal of arguing back and

forth and explaining it was agreed to let on some of the revenue cutter's load. But Dr. Cook took shelter in the pilot

Cook Mobbed by Friends. When Dr. Cook stepped from the tug

to the excursion boat he was swamped. The first man to grasp his hand was Capt. Bradley Osborn, secretary of the Arctic Club of America, who called out: "Thank God, doctor, I am going to shake your hand."

Then came Bird S. Coler, president of the borough of Brooklyn, and other notables. Mr. Coler and Mr. Osborn were much in evidence thereafter. The crush which took place on the Grand Republic would have put the

vould have put the fight his way through a mob wherever he Hatteras with disabled machinery. Most of his well-wishers went after

him as if he were the north pole itself and they wanted to get a souvenir. Several men and women had their clothes Cinematographs and cameras were turned on him from every point of vantage as he passed through a guard of honor of the 47th Regiment.

Dr. Cook was greeted by the official reception committee. A wreath of roses was placed about the explorer's neck. Ceremonies on the Grand Republic. The ceremonies on the Grand Republic during the three hours that the explorer and the reception party were aboard were necessarily informal, owing to the crowd that pressed about Dr. Cook, all

eager to shake his hand and exchange words of greeting. of his old Brooklyn friends, who had in the hands of counsel for the estate been delegated to decorate the explorer with a wreath of roses, in accordance with the custom followed at Copenhagen.

As Miss Lehmann threw the garland about Dr. Cook's neck she said: "You, hero of the north, come to us, your friends, associates and business acquaintances of your own neighborhood,

"Your record with us was one of honor, character and conscience, and your word the synonym of truth. We believe you came from the far north,

Mountain City En Fete for Reception This Afternoon.

SPEECH ON CONSERVATION

Views on Important Subject.

Secretary of the Interior Awaiting His Arrrival—The Program of Entertainment.

DENVER, Col., September 21.-Prestlent Taft crossed the state line into Colorado at an early hour this morning from Omaha and was met at Limon by the reception committee from Denver. He is due to reach this city this afternoon. The President will be the center of at east two formal social gatherings in Denver in addition to being the principal speaker at the auditorium tonight. In he hours between these events the President will hold a conference with Secretary of the Interior Ballinger presumably on forestry, which may become the

sponse to summons from his chiet The day's program includes a drive through the streets, which were gayly decorated with the Stars and Stripes. Through an arrangement made by Mayor Speer, thousands of flags have been distributed free to the people that they may wave a patriotic salute to the President

main topic of his address tonight. Mr.

Ballinger arrived here yesterday in re-

Guest of Senator Hughes.

Today the President will be the guest of Senator Charles J. Hughes at his palatial home, where a dinner will be served in his honor. Sixty-five other guests have delegates the afternoons to themselves, been invited to this function. At 4 o'clock so they could see the sights of Washthis afternoon, the President will deliver ington. Invitations have ben extended an address from the steps of the capitol. At the conclusion of the auditorium meeting tonight, President Taft will return to the Hughes home, where he will spend the night. Tomorrow morning the President will become the guest of Thomas F. Walsh at the latter's Wolhurst country seat, fourteen miles from Denver. A breakfast in his honor to which thirtyfive citizens have been invited and a reception are features of the program. Gov. and Mrs. Shafroth will assist at the

The President will then continue his ourney westward through Colorado, stopping at Montrose to open officially the Bacon, Presbyterian Hospital, Chicago, Gunnison tunnel, an irrigation project of the reclamation service. Tonight in the auditorium where Mr. Bryan was nominated for President last year the President will probably make known in the fullest detail his views on the conservation of the country's natural

The President has saved this speech until entering the edge of that vast terriory which depends largely upon irrigation and reclamation projects for its agricultural prosperity. It is Mr. Taft's purpose to speak to the people so far as Priests Attribute Desecration he can about the subjects which are of he greatest interest to them. He wants to have public discussion of the great questions which are to be dealt with by Congress in order that the legislative body may have the benefit of whatever public opinion that may become.

Last Important Speech. The speech that the President is expected to make tonight is really the last of the big speeches that he set out to make. In Boston, a great center of of monetary seform. In Chicago, a

stronghold of organized labor, he detailed a new high position with regard to unionism and the issuance of injunctions in labor troubles. In Winona, Minn., the home of the congressional insurgents, the President boldly said what he had to say with regard to the tariff, and declared that those of the republicans who voted against the Payne bill had abandoned their party.

At Des Moines, Iowa, Mr. Taft went at length into the needed amendments to the interstate commerce act and anti-trust laws. Lastly comes the question of conserving natural resources. The west from Denver out has been as deeply stirred over this question as have been the states like Minnesota and Iowa over the question of the tariff. The President's statement of his views has been anxiously awaited.

DISABLED CLYDE LINER PROVES A HARD TOW.

At 10 A.M. Today Sabine's Wireless Reported Position 42 Miles From Southport, N. C.

BEAUFORT. September 21.-Wireless that she is making slow progress in towing the disabled Clyde liner Carib, being upon himself to announce that Dr. Cook able to proceed at the rate of only six altar, instead of in the niche from which knots. At 10 o'clock this morning the two steamers were about forty-two miles girl has been removed to the seminary from Southport, N. C., to which port the Sabine is bound.

> At Southport tugs will meet the vessels and tow the disabled Carib to Wilmington, where her passengers will be landed and those booked for Georgetown, S. C., will be sent forward by rail. The Sabine, when relieved of her tow, will coal and proceed on her voyage to Key West and Galveston. Capt. McIntosh of the Sabine reported by wireless that he would reach Southport with the Carib at 4 o'clock

summer vacation, and was held in the WILL EXPLAIN ALL, HE SAYS

R. Glavis Writes President That He Will Publish Cunningham Evidence.

SEATTLE, Wash., September 21 .-

Speaking at the chamber of commerce last night, Postmaster General Frank H. Hitchcock brought the guests cheering to their feet by a eulogy of Secretary of the Interior Richard A. Ballinger. "Richard Ballinger's character is as unsullied as the snow of your mountain ranges," he declared. "As well attempt to shake the foundations of the great Mount Rainier as to assail the character of the Secretary. I am proud of the representation that the city of Seattle has in the cabinet."

AVALON, Catalina Island, Cal., September 21 (By wireless to Los Angeles).-After a two-week sojourn at San Clemente, a barren island, forty miles off the coast of south California, Gifford Pinchot, chief of the bureau of forestry, has arrived here. Concerning the Ballinger-Pinchot controversy Mr. Pinchot said: 'It is a mystery to me why it has been called the Ballinger-Pinchot fight. I have no fight. Although I am not yet in a position to say definitely, I have every reason to believe that matters will be adjusted satisfactorily as soon as I can return to Washington next week. "At present I am awaiting a letter from President Taft, which I expect to receive here about Tuesday. than this I have nothing to say. My duty as a public official demands that no random statements be made.'

Silent About Alaska Case. "Have you made any statements concerning the report by L. R. Glavis relative to the Alaskan coal and land cases?" Mr. Pinchot was asked.

"I have not," he replied. "My views in regard to this matter have been misun-It is understood Mr. Pinchot has no in-

One flights. of them was hooked late in the evening. while Mr. Pinchot and Mr. Pardee were in a small rowboat. They were towed ten miles to sea by the fish, and were rescued at midnight by Prof. Holder with a gasoline launch, who found their frail boat in a heavy sea. Both of the swordfish are being mounted to be forwarded to Washington.

SEATTLE, Wash., September 21 .- L. R. Glavis, late chief of the Seattle field divi- Appraisements Made of Realty on sion of the United States land office, has written a letter to President Taft, in which he says he will publish the evidence There is a development relative to the in the Cunningham coal land cases shortfollows: "The President: 'Sir-I have laid before you all the essential facts in my possession regarding Lutheran Church of Mansfield, Ohio, has the official conduct of certain cases of

Glavis Will Publish Evidence.

cause of the tremendous value involved, I felt my personal responsibility most keenly. The evidence indicated that a great syndicate is trying to secure a monopoly of this coal, in direct violation of the law. Ultimately I felt myself obliged to appeal to you over the heads of my superior officers in order to bring about the enforcement of the law, which, in a measure, would conserve these coal lands to the people at large. I deemed it my duty to submit the facts to you, and I cannot regret my action.

"Since there may be now even greater danger that the title of these coal lands 136, Elvira E. Snyder, owner, nothing; will be fraudulently secured by the syndi- No. 138, James C. Carroll, owner, nothcate, it is no less my duty to my country ing, and No. 140, Martha E. Allen, owner, to make public the facts in my possession, concerning which I firmly believe that you have been misled. This I shall Schafer against the District was today C. Douglas as the new pastor, and will do in the near future with a full sense present his name to the congregation as of the seriousness of my action and with leep and abiding respect for your great office. Respectfully, L. R. GLAVIS." office. Respectfully,

MANUFACTURERS' ASSOCIATION WRITES TO ITS MEMBERS.

Law Makes It Obligatory and Government Officials Are Explaining the Plan.

In taking the thirteenth census the law directs that certain statistics in regard to capital, employes, wages, cost of materials, miscellaneous expenses and value Those stores were left by me in 1883 of products shall be collected from all sentative concerns and the creation of an advisory board of special agents. The census of manufactures will be

the federal census of 1900. The inquiries are similar to those used at prior censuses. They require a description of the business or kind of products, the amount of capital, the number of employes, the

amount paid in wages and salaries, the amount of miscellaneous expenses, the cost of materials and the value of the products at the factory or mine. Obliged to Furnish Figures. While the act of Congress, approved July 2, 1909, under which the census is taken, makes it obligatory upon every owner, president, treasurer, secretary, director or other officer or agent of any manufacturing establishment, mine,

quarry or other establishment of productive industry, whether conducted as a corporation, firm, limited liability company or by private individuals, to furnish the statistics required for this census, it also provides that the information supplied shall be used only for the statistical purposes for which it is intended; that no publication shall be made by the census bureau whereby the data furnished by any particular establishment can be identified; that the director of the census shall not permit any one other than the sworn employes of the census bureau to examine the individual seports. A severe penalty is also provided for any clerk or special agent who shall publish or communicate any information coming into his possession by reason of his employment in the census office,

HOME FROM SCENE OF HIS TRIUMPHS IN AIR.

Arrangements Under Way for His Exhibition Flights at Hudson-Fulton Celebration.

Curtiss, the american aeroplanist, winner of flying contests at Rheims and Brescia, arrived here today aboard the Kaiser Wilhelm II. Representatives of the Hudson-Fulton celebration aeronautical committee, the Aero Club of America and the Aero Club of Italy went down the bay to meet Mr. Curtiss.

Further party of aviation enthusiasts. Mr. Curtiss said that, while he did not bring with him the money which he won at the Brescia contest, he had a written agreement which assures him that he will get all the prizes which he won. Mr. Curtiss will meet the Hudson-Fulton committee on aeronautics this afternoon, and probably will conclude

Mr. Curtiss said that he would meet representatives of St. Louis, Chicago and Indianapolis interests who are here tention of resigning as chief forester. He to obtain the services of the aviator for will return to Washington about Septem- exhibition flights in those cities. "I have left all my plans unsettled
